1. Forestry/Riparian: Response to Comments (Supplemental Information/Briefing/Issue Paper is FYI only) *Christine provided comments on Response to Comments directly to Alan and Jayne. Jayne agreed to forward them to all (see 10/15 email from Jayne).*

- Will begin scheduling meetings for November with upper management in respective agencies.

Legal Team

Ex. 5 - Attorney Client

Tech Team *(updated on 10/21)*

- All will provide comments on ***OSDS Rationale*** to Don by COB on Oct 17 (see attached). Don will develop and send responses to comments on OSDS to Allison and Jayne by COB October 20. ***Don sent updated OSDS rationale addressing comments to Tech team. The team will review by COB today. Don will send response to comments by COB today.***
- Don will circulate a revised ***New Development rationale*** once he receives key information from Jenny (who is getting that information from ODEQ). Don will develop and send responses to comments on New Development to Jayne and Allison by COB October 20. ***Don sent updated New Development rationale and response to comments to the Tech Team. The team will review by COB today. Allison incorporated the comments into Response to Comments document.***
 - All will provide comments to Alan on ***Forestry - Riparian Buffers Rationale & Response to Comments*** (see attached) no later than October 15. ***Alan will send additional comments on the revised rationale to Allison by COB today. Allison addressed comments on the response to comments and incorporated into the document.***
- ***Forestry - Landslides Rationale*** – Alan will revise the rationale based on comments received. Alan will send the rationale and response to the comments to Jayne and Allison by COB October 20. ***Completed except for Teresa's comments. If not received by COB today,***

then will wait for next comment period.

- **Forestry-Roads Rationale** – Alan will revise the rationale based on comments received. Allison will draft responses to comments for Alan’s review by COB on October 15. Alan will send the rationale and response to comments to Jayne and Allison by COB October 20. *Completed except for Teresa’s comments. If not received by COB today, then will wait for next comment period.*

- **Forestry-Pesticides:** Jenny will incorporate comments received on the rationale and responses to comments and then send the rationale and response to the comments to Jayne and Allison by COB October 20. *Sent rationale and response to comments to Allison and Jayne and gave the go ahead to distribute for comment. Allison had a few questions and both will discuss after this call.*

- Allison will incorporate outstanding pieces and Jayne will send the *decision/finding document and response to comments document* to the tech, legal and management teams for their review on October 22.

- All will provide comments to Allison on draft *final findings/decision document* by Oct 15 at 8 am WA/OR or 11 am VA/MD. *Completed.*

- Jayne will review the *state submittal to determine if there are comments contained within* and whether any of those comments are already addressed or need to be added to the response to comments document by COB on Oct 15.

- Tech Team will begin working on talking points and communications plan (using previous versions as models) for January 30 decision.

Decisions

- Make sure NOAA/EPA’s questions asked and comments on agricultural MMs received during the public comment period are included in the Response to Comments document but use a general language* as shown below as the response. Send separate correspondence to Oregon outside of this decision (but as soon as possible after Jan 30) on concerns on ag MM and possible ways to address them.

- No need to classify the state submittal as a comment or not. Instead will make sure that all comments contained within the state’s submittal provided during the comment period are reflected in the response to comments.

**Potential wording in Response to Comments document: “NOAA and EPA invited public comment on the adequacy of Oregon’s programs and policies for meeting the 6217(g)*

agriculture management measures and conditions placed on Oregon's Coastal Nonpoint Program. The federal agencies appreciate the comments received and will consider them closely. However, the December 20, 2013, proposed findings did not propose a specific decision on whether or not Oregon had satisfied the CZARA 6217(g) agriculture management measures. Since the public did not have an opportunity to comment on a specific proposed decision and rationale for that decision, the adequacy of Oregon's agriculture programs is not a basis for the final findings that Oregon has failed to submit an approvable coastal nonpoint program. The public will have an opportunity to comment on NOAA and EPA's proposed decision regarding the agriculture management measures at a later date."
